# How we work

## CONSULTING PROCEDURE

PDCA —“Plan-Do-Check-Action” cycle— is widely used in our coaching process, which will bring continuous improvement to the factory.

- PLAN

- Step 1: On Site Evaluation

- Step 2: Action Plan

- DO

- Step 3: Execution

- Step 4: Training

- CHECK

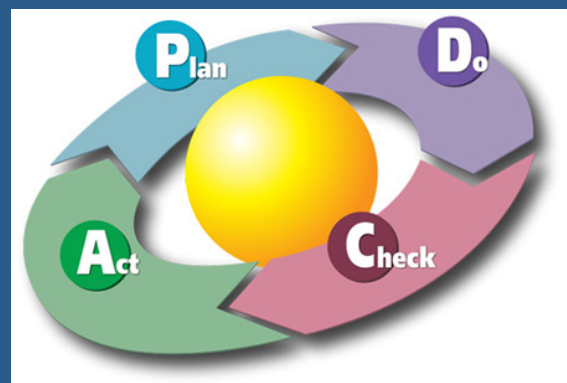

- Step 5: Simulate audit

- Step 6: Preparation Before Audit

- ACTION

- Step 7: Audit

- Step 8: After Sales Service

# How we work

Ally Information Service

## ■ PLAN

### Step 1: On Site Evaluation

AIS will send to the factory experienced consultants, who will first have an on site evaluation of the current status of the factory, including:

3. Former audit reports;
4. Evaluate the documents needed for audit;
3. On site evaluation of workshop / dormitory / canteen;
4. Employee interview: Interview employees randomly to better understand the status of the factory so that we can have a better plan for the training of workers.

### Step 2: Action Plan:

Based on the first stage evaluation, AIS consultant will provide a comprehensive and detailed action plan to manager or project leader and have feasibility analysis with together with them.

## ■ DO

### Step 3: Execution

1. Establish a project team;
2. Responsibility allocation;
1. Team members carry out the plan under consultant's instruction;
2. Project leader is accountable for the project;

### Step 4: Training

Provide training to relative personnel, including:

1. Client's standards-introduction;
2. Client's standards-understanding & Application;
3. Relevant laws and regulations;
4. Employee interview;
5. Skill of responding to audit;
6. Other trainings if necessary, etc;

# How we work

Ally Information Service

## ■ CHECK

### Step 5: simulate audit

AIS consultants will conduct a simulated factory audit and submit an audit report after the simulate audit.

### Step 6: Preparation Before Audit:

According to the simulated audit, consultant and project leader check all documents again, mobilizing the employees to cooperate in terms of factory audit and being well prepared for the audit;

## ■ ACTION

### Step 7: Audit

AIS consultants will be on site to assist the factory during the audit, responding to emergencies during the audit. So we can make sure a passed audit result.

### Step 8: After Sales Service

AIS offer long-term after sales service, include free consulting, information enquiry, and audit information update, etc. To help the factory to get continuous improvement is always the goal of AIS.
